📁 PROJECTS

- Expansive-Tracker, ReactJs**  Mar 2023 – Mar 2023
- An expense tracking system helps individuals or organizations keep track of where they are spending their money.
 - This system helps you manage your individual finances by capturing Expenses and Income Invoices.
 - Additionally, it also enables you to get deep insights into your personal cash flow so that you can make informed decisions about where to allocate your resources.
- NewsHunt, ReactJs**  Feb 2023 – Feb 2023
- In the project, I created a user interface that allows users to view news articles from various sources and search for news articles based on keywords, categories, or sources
- GupShup, ReactJs**  Dec 2022 – Feb 2023
- our chat application is allows users to communicate with each other by exchanging messages in real-time.
 - The messages are displayed instantly as they are sent, providing a seamless and immediate communication experience.
